# SOUTH SOUTH 2021 DAKOTA 2021 Annual Report

60 years of the South Dakota Wheat Commission

### South Dakota Wheat Resources Act

Sixty years ago visionary South Dakota wheat producers and state legislators adopted the South Dakota Wheat Resources Act. The act established a Wheat Commission and provided for the deduction of a promotional fee on all wheat produced in South Dakota after July 1, 1961. The commission was charged with the responsibility of formulating policies and programs relating to the promotion and development of markets and industries for the utilization of South Dakota wheat. In the years that have followed the South Dakota Wheat Commission has effectively managed wheat producer contributions through investments in research, market development and consumer education.

## 1961

The South Dakota State Legislature passed the South Dakota Wheat Resources Act establishing the South Dakota Wheat Commission. Charter members included above: Back Row (left to right): Charles Tutsch, Executive Director; Commissioner Andrew Brakke of Presho; Commissioner Melvin Borkirchert of Roscoe Front Row (left to right): Commissioner Bert Mason of Frankfort; Commissioner/Chairman Paul Guiser of Martin; Commissioner Barnest Covey of Hamill

### A look back on 2021

reveals an extremely tumultuous year in the wheat industry. Acreage shifts, weather complications, and ongoing COVID impacts on the domestic and global society all impacted wheat inventories, exports, and prices.

In South Dakota **Hard Red Winter Wheat** planting, in fall 2020, increased 27% over the previous year. It was also a year that was challenged by shifting climate cycles. Although 90% of the acres would be harvested in 2021 the increased acres produced 21% fewer bushels. A dry winter and spring coupled with an early hot dry summer significantly reduced wheat yields! Due to extreme forage shortages, many producers were also forced to harvest acres for wheat hay to sustain foundation cow herds. The limited wheat that was harvested was of strong milling quality and remains in demand as evidenced by the positive cash basis that continues into 2022.

## 2021 Year in Review (Continued from page 2)

The dry winter and spring conditions of 2021 resulted in a 6% reduction of **Hard Red Spring Wheat** planting compared to the previous year. Of these limited acres, 22% would be abandoned! Hard Red Spring Wheat bushels harvested in South Dakota in 2021 were reduced 52% from the previous year. Milling quality of the harvested wheat remained strong and desirable.

Several factors combined to provide optimism in the fall of 2021 for the planting of the **2022 Hard Red Winter Wheat** crop including: increased price opportunities, early soybean harvest providing available acres, wellneeded Labor Day weekend rains across most of South Dakota, unknown fertilizer costs and availability in 2022, increasing focus upon the merits of a cereal grain in soil health focused rotations, and overall rotation reviews and balancing by many producers.

Sixty years of experience has continuously energized the current members of the South Dakota Wheat Commission to effectively manage and invest the contributions of their fellow producers. The focus and commitment to the improvement of the wheat industry remain strong and true to the original enabling act.

### **ACRES PLANTED**

Wheat Type	Total	Change %
Winter Wheat	800,000	+27%
Spring Wheat	720,000	-6%
Total Wheat	1,520,000	+9%

### **BUSHELS HARVESTED**

Wheat Type	Total	Change %
Winter Wheat	27.4 million	-21%
Spring Wheat	17.1 million	-52%
Total Wheat	44.5 million	-37%

### **BUSHELS/ACRE**

Wheat Type	Total	Change%
Winter Wheat	38	-20
Spring Wheat	29	-18

### South Dakota Wheat Production

Compared to 2020

#### **ACRES HARVESTED**

Wheat Type	Total	Change %
Winter Wheat	720,000	+20%
Spring Wheat	590,000	-22%
Total Wheat	1,310,000	-4%

### **ALL WHEAT**

stored in all positions on September 30, 2021 totaled 59.2 million bushels, down 31% from the previous year.

-31%

#### COMMISSIONERS

Tregg Cronin – Gettysburg Bryan Jorgensen – Ideal Julian Roseth – Midland Leon Koeppe – Claire City Terry Hand – Midland

EXECUTIVE DIRECTOR Reid Christopherson

> ACCOUNTANT Carolyn Theobald

\* Fiscal Year is July 1 to June 30 (i.e. FY21 = July 1, 2020 to June 30, 2021).

Partial membership in U.S. Wheat Associates and National Association of Wheat Growers.

Revised October 2021

#### Professor Emeritus Dr. Padmanaban "Padu" Krishnan

The South Dakota Wheat Commission salutes the distinguished research commitment and service of Professor Emeritus Dr. Padmanaban "Padu" Krishnan upon his retirement from South Dakota State University in 2021. Padu made significant contributions to the ever-continuing development of Cereal Science chemistry.
