World Agricultural Supply and Demand Estimates

As of September 12, 2022

- The 2022/23 U.S. wheat outlook for supply and use is unchanged this month.
- The 2022/23 global wheat outlook raises supplies, consumption, exports, and ending stocks this month.
- World ending stocks increase 1.2 million tons to 268.6 million as stock increases in Russia and Ukraine more than offset a decline in the EU.

South Dakota Wheat Stocks

As of June 30, 2022
